## PRODUCT DATA

### ZEFATECH® MC 068 (MULTI PURPOSE CLEANER)

REMOVE MINERAL OIL CONTAMINANTS GREASE, OIL, CARBON, FROM METALS AND CONCRETS SURFACE, LIKE PLASTIC, VINYL, ETC.

#### DESCRIPTION

ZEFATECH®MC 068 Multi Purpose Cleaner is an alkaline active chemicals solution, combined with detergents, surfactant and wetting agents, to be multi cleaning purpose. MC 068 Multi Purpose Cleaner appears in yellow liquid color with lemon accent.

ZEFATECH®MC068 Multi Purpose Cleaner is a concentrate alkaline solution designed for use in industrial, manufacturing and food-processing plants, it is completely non-flammable and can be used in and around high temperature machines and blowers. It is non-corrosive and contains no acids or chlorine to corrode, etc or mar finished surfaces.

ZEFATECH®MC068 Multi Purpose Cleaner by its chemical formulation, attacks the molecular structure of soil, thereby destroying its adhesive qualities and emulsifying the soil, which is then wiped or mopped away.

#### FEATURES

- MC 068 cleans and removes grease, lathers and other machine tools and machining prior to repainting.
- Removes lay out ink or lay out dye from machine parts, forging and tools.
- Cleans away oils, grease, ink, and all soils from computers, and all office machines.
- Remove all soil easily and quickly from sky lights and windows found in industrial plants.
- MC 068 is much safer to use than inflammable or toxic solvents such as alcohol or thinners.

#### ECONOMICAL

MC 068 can be used in concentrate form or diluted to 1: 5 – 15 parts with water depended upon condition.

#### CHARACTERISTICS

Composition	: Biodegradable penetrant and modified alkaline
Appearance & odor	: Yellow liquid with lemon accent.
pH (1% solution)	: 12 ± 0.5
Specific Gravity	: 1.06 ± 0.075
Flash Point	: Non flammable
Solubility in water	: Completely soluble

#### PACKING

: 10 or 25 Kg/pail and 250 Kg/drum
