AQUARIGHT B - TAB

**DESCRIPTION
AND USE**

AQUARIGHT B-TAB is an organic biocide tablet form, non volatile water soluble and non foaming compounds.

AQUARIGHT B-TAB is specifically formulated to control slime forming bacteria and other biological growths in air conditioning condensate pans.

AQUARIGHT B-TAB is used as part of a planned maintenance programmer within industrial, hotels, public and private buildings that utilize fan coil units (FCU) and/or air handling units (AHU). It is a fast acting, broad spectrum biocide to ensure condensate pans remain clean and drain clear.

**GENERAL
SPECIFICATION**

Appearance	: Off White tablet
Molecular Weight	: 241.5
Tablet Size	: 30 mm x 16 mm

**TREATMENT
AND DOSAGE
REQUIREMENTS**

AQUARIGHT B-TAB should be dosed one tablet treat approximately 0,20 m² of pan area for up to 4 months. Place the tablet in the pan at the furthest point from the drain.

AQUARIGHT B-TAB would be dissolved, for this reason biocide should be use on regular routine basis.

**PRODUCT
BENEFITS**

Fast acting, broad spectrum biocide

Maintains control in contaminated systems

Chemical stable to 160 °C

Effective against gram positive and gram negative bacteria including legionella pneumophilia.
